## ABOUT ME

I'm a final-year Computer Science Engineering student with a strong interest in Python development and creating practical, real-world solutions. During my internship at Learn and Build, I worked on hands-on Python projects that improved my problem-solving skills. I've also built multiple projects in Python, C++, Java, and Web Development, showing my ability to learn and adapt to different technologies. I enjoy tackling challenges and applying my technical knowledge to real problems. As a fresher, I'm eager to join a team where I can keep learning, contribute meaningfully, and grow as a software developer.

## EDUCATION

### 2019 - 2021

G.S.S.S, Fatehnagar

### SENIOR SECONDARY EDUCATION

I did senior secondary schooling at Government Senior Secondary School, Fatehnagar and i secured 86.20% in higher education

### 2022 - 2026

SPSU University

### Bachelor of technology with AIML

I am currently pursuing my bachelor's degree in computer science from SIR PADAMPAT SINGHANIA UNIVERSITY, UDAIPUR. And this is my final year. And till now my CGPA 7.2 .

## PROJECTS

### SIH HACKATHON

2024-2025

### FACE LIVENESS DETECTION USING ML

Built a Face Liveness Detection system using Python, OpenCV, and Machine Learning to detect real vs. spoofed faces in real time. Applied computer vision and classification models to enhance authentication security .

### INTERNSHIP PROJ.

LEARN AND BUILD

### AUTOMATED RESUME SCANNER USING PYHTON

Built an Automated Resume Scanner using Python, Streamlit, and NLP to parse PDF/DOCX resumes, match them with job descriptions, and rank candidates by relevance. and get results in CSV formate .

## SKILLS

- Leadership
- Digital Marketing
- Communication
- Inovation
- Analytics
- Teamwork
- Problem Solving
- Collaboration

## LANGUAGES

- C++
- PYTHON
- JAVA
- WEB DEVELOP
